RIOTING IN IRELAND ON EASTER DAY

Sinn Fein Army Destroys 71 Police Barracks in Daring Coup

USE FIRE AND BOMBS

Burn Up Tax Records at Dublin; One Man is Killed

DUBLIN—Irish rebels on Sunday accomplished their greatest Easter coup in years.

By daring raids in various parts of the country they wreaked damage amounting to tens of thousands of dollars.

Revised accounts of raids record attacks on 62 objectives by the marauders, including 71 police barracks, which were burned or shattered with bombs.

The authorities at Dublin castle estimate that between 2,000 and 3,000 men participated, the majority of them well armed. The detachments marched about their work of destruction in military formation.

It is declared by government representatives that a commander of the Sinn Fein army, whose identity is protected by great secrecy, ordered the deeds done.

At midnight Sunday the incomplete record of damage stood:

Police barracks burned or blown up, 71.

Income tax offices raided of records and burned, 22.

The number of barracks destroyed is expected to reach 100.

Raiders Give Warning.

In most cases, the police had left the barracks to go to concentration points in the larger cities. Where only women and children were left, the raiders gave warning, hence there were no casualties.

At Dublin castle it was stated all citizens whose records have been destroyed will be reassessed, and their taxes are likely to be increased by the need of funds to replace the barracks and huts destroyed.

Fly Rebel Flag.

The Sinn Fein flag has been flying all day long from the masthead of the flagstaff on Admiralty pier at Queenstown. It was hoisted during the night, and the pole was well greased, to prevent it from being hauled down.

Police barracks were blown up, or burned, at Clough, Lough Brickland, Restrevor, Trillick, Castle Townsend, and Skibbereen by bands of armed men, wearing masks.

Ten armed men entered the residence of Kieran Flynn at Burteen, led him out, and shot him down on his own doorstep.

In County Mayo two policemen were fired on from ambush, and seriously wounded.

Although the authorities had made elaborate preparations to put down the slightest disturbance, the raiders were able to accomplish their destruction, even in the city of Dublin, where the troops were especially alert, and in great force.

At 6 o'clock Sunday night not one arrest had been made.

The fact that the raids took place almost simultaneously and apparently in conformity with a schedule, indicated that this sort of activity would feature a new phase of Sinn Fein resistance to British authority in the country.

Citizen Class to Hear Olbrich

The Structure and Work of a Nominating Convention is the subject of the address of Attorney M. B. Olbrich at 7:30 tonight before a meeting of the citizenship series which the city Y. W. C. DANISH STRIKE IS CALLED OFF

New Ministry is Meeting Approval; Ends Walkout

(By the Associated Press)

COPENHAGEN—An agreement to end the general strike which resulted in forcing King Christian to dismiss the Liebe cabinet has been reached by employers and workmen.

The strike weapon now has been employed in two important constitutional crises. The first was in Germany, where the reactionary government set up by Dr. Kapp was forced to relinquish power at the end of five days. The success of the strike here was almost as speedy.

The ministry which has been formed seems to meet with general approval. It is composed of the permanent secretaries of the different governmental departments, who will carry on the routine of the departments in the government which is considered temporary. The other portfolios are held by men who are not considered likely to make any radical changes.

The reinstatement of H. P. Hanssen as commissioner for Schleswig affairs has given satisfaction to those who objected to an annexation of the disputed northern Schleswig plebescite zone. It is stated that the appointee's political friends are endeavoring to persuade him not to accept the post, fearing that his presence in the government would be in propaganda against the temporary cabinet.

FIRE DESTROYS M'KENNA HOME

Damage is $25,000; Report Four Other Blazes

Sunday was a busy day for the Madison fire department, according to Chief Heyl, who received five calls during the day to send out his men.

The J. C. McKenna home on the Fish Hatchery road was completely destroyed by fire early in the afternoon. The family were at dinner when a crackling noise was heard, which proved to be the flames on the roof. It is thought the fire started from a defective chimney.

Fire department, station 4 was called but could do nothing to save the house. A group of buildings, including the barn, garage and icehouse, located about 300 feet from the home, caught fire, but these flames were extinguished before serious damage resulted. Mr. McKenna estimates his loss at $25,000.

Other fires occurred as follows: 8:20 a. m. a chimney fire at 619 Langdon st., the home of Mrs. Elsie Robinson, which is used as a rooming house for university students; 9:45 a. m. a roof fire at 202 N. Park st, the home of Jeremiah Devine; 10:22 a. m. burning rags at the Hick's restaurant, King st.; and a chimney fire at the Marschall Dairy laboratory, 14 Proudfit st., at 6:55 p. m.

Many Questions Submitted to the Voters; Votes Distributed Today

WEATHER UNSETTLED?

100 Will Register Votes Through Absentee Ballots; Polls Open at 6

Weather Forecast

WISCONSIN — Increasing cloudiness tonight becoming unsettled Tuesday; slightly warmer tonight and in east portion Tuesday.

Because of the interest in the referendum on the municipal ownership of Madison street railways, and campaigning by candidates for city and national convention offices, a heavy vote is expected at the spring election Tuesday. Blank ballots were being distributed to the various voting precincts in the city Monday afternoon under the supervision of City Clerk O. S. Norsman.

Eight ballot boxes will be used at each polling place, one each for the separate ballots for the municipal ownership referendum, the daylight savings referendum, the election of city officials, the election of three members of the board of education, the judicial election, the state referendums, the election of delegates to the national conventions, and one for the waste ballots not used in voting for delegates. Women will vote for school board members and the daylight saving ordinance.

The last of the absentee voters' ballots were made out by Harry Buser, assistant city clerk, Monday morning. More than 100 have voted by absentee ballots.

Polling places will open at 6 o'clock Tuesday morning and will remain open until 8 o'clock in the evening. Polling booths are located as follows:

Bitter Winds Fails to Daunt Carrollers

Undaunted by the bitter winds and freezing temperature, twenty-one groups of Easter carollers brot Easter music to the ears and hearts of Madison people Sunday morning. The Kiwanis club provided cars that took the young men and women to the various places at which they stopped to carroll their joyful tidings.

Special stops were made at the hospitals and places where shut-in people were confined. No luxurious Sunday morning a-bed for the carrollers, who appeared at various places promptly at the hours scheduled, shortly before seven o'clock. Drivers of the cars, who did not take part in the singing, spent the time warming themselves in the milkman fashion.

SAYS CHRIST WAS REFORMER WHO DIED IN BELIEFS

REV. A. E. HAYDEN

SO long as there are ignorance, poverty, wretchedness, misery, pain and anguish in this world, and because we now know, through science and by our desire for democracy, that these can be changed, we dare not escape the responsibility of making life better for our fellows," declared Dr. A. E. Hayden of the University of Chicago to a congregation that filled every seat in the Unitarian church Sunday morning.

"The ideal of the old individualism has gone because the words democracy and brotherhood have been whispered into our ears. We cannot be satisfied while the cruelty of injjustice exists, while its victims moulder behind prison bars. My heart aches when I think of Debs in that great prison. How he loved life! And while these injustices and cruelties go on, and human life is neglected, the great governments of the world are playing for political things, for oil concessions, lands and similar things.

"With the call of the spring, there comes back to us the old demand that all life must be given the fullest expression. This, and only this is the greatest hope of human life in the future. At this time we remember Christ, his great human, all engulfing sympathy, his love for the people. He was a reformer, so the priests and politicians of his day wanted to get rid of him. 'You had better stop preaching your doctrines,' they told him, but he hurled his defiance at them and died rather than forsake the cause of the people. He was a rebel. His was the pledge of loyalty which all great souls who have dared to stand for man in the face of oppression and death have made. Cannot we at least pledge ourselves to lay the foundations of the kingdom of brotherhood on earth?

"Forget the past, let it go, press on to the high goal of human brotherhood," urged Dr. Hayden. "There is enough of failures, defeat, sadness and lost opportunity, but we can't recover it by looking back. How can we go forward if we are looking back into the 'ich of the irrevocable?' Forget the successes, too. As Elbert Hubbard said, 'When the things you did yesterday looks big to you, you haven't done much today.'

"When a thing has fulfilled a need it has justified its existence, but that is no reason why life should be tied up in it. New things must follow. Let the past go. The past is a problem, from which we can't get away suddenly, but it is a mistake to think that radicalism will wreck the past. That is not so easily done. Don't let the past tie you up so that you can't meet a new situation. Our civilization is filled with the debris of the past. A new future is the answer to the call to the full expression of life."

"We, whose names are hereunto subscribed, desiring a religious organization in the spirit of Jesus of Nazareth, which shall make integrity of life its first aim, and leave thought free, associate ourselves together as the First Unitarian church of Madison and accept to its membership all of whatever theological opinion, who wish to unite with us in the promotion of truth, righteousness, reverence and charity among men."

Those who joined were: Prof. and Mrs. Hobart D. Frary, Mr. and Mrs. V. T. Thayer, Prof. and Mrs. E. G. Hastings, Dr. and Mrs. L. W. Dowling, Mr. and Mrs. W. H. Healey, Dr. Elma J. Townsend, Dr. Selina Severson, Mrs. J. F. Wilson, Glen D. Kilth Mrs. Mary W. Fealy and Samuel W. Mendum.

BIRMINGHAM, Ala.— Snow fell over most of Alabama early Monday, the latest of record at many points. Florence reported a temperature of 38 and in many parts of the state anxiety was felt for the safety of fruit crops.

CARPENTERS WALK OUT IN CITY TODAY

Failure of Wage Scale Agreement Sends Out 350 Workers

TIES UP CONSTRUCTION

Building, Operations Here Cease; Ask Wage of $1 Per Hour

All construction work in Madison has been tied up for an indefinite period as the result of a strike call which went out to the members of the local carpenters' union Monday morning.

The call, which is signed by the union's publicity committee, reads:

"The United Brotherhood of Carpenters and Joiners, local 314, went on strike against the Madison Contractors' association Monday morning. The local demands an increase in pay to $1 an hour, which is seven per cent more than the contractors have offered."

Immediately on the issuance of the call, construction work in the city, which has lagged since April 1, absolutely ceased.

The old wage agreement between the carpenters and contractors expired April 1. Other building trades here have signed up new agreements carrying wage increases, but no agreement could be reached between the carpenters and joiners and the construction bosses. The walk-out came Monday after four days' of conference.

The men point out that many Wisconsin contractors have subscribed to the new wage demand of $1 per hour, and that Chicago builders have granted a wage increase to $1.25 per hour.

Among the building operations which will be halted by the strike are the new extension to the Fuller-Johnson plant, the French Battery company's extension, and scores of incompleted or projected new dwellings and stores.

Madison is 100 per cent unionized in the building trades, union men said, and the strike call will affect about 350 local workmen.

WASHOUT STOPS WAUZEKA TRAIN

Flood Changes Service From Madison to Bridgeport

No trains will run from Madison to Bridgeport through Wauzeka for some 7 or 8 days, according to information from the ticket office of the Chicago, Milwaukee and St. Paul railroad here Monday afternoon. The stretch of road between Wauzeka and Bridgeport is submerged in water about five miles, the tracks being about 18 inches under water, and are now said to be sagging into the river.

Service over this road stopped Friday and passengers bound for points along this route beyond Wauzeka are being sent either through Portage and La Crosse or south through Janesville and Davis Junction and then up the river. Trains are still running as far as Wauzeka, however.

The Mississippi river is said to have risen 18 inches during the day Sunday.

ACTRESS FAINTS ON THE STAGE; ACT GIVEN UP

JEAN WATERS

Jean Waters of the Kapt. Kidd's Kidd, a musical farcial fantasy, announced as a headliner at the Orpheum for the first half of the week fainted on the stage in the first performance Sunday evening. A doctor was summoned and Miss Waters taken to her hotel. She had been ill recently and fearing a nervous breakdown will rest the remainder of the week.

Mr. and Mrs. Perkins D. Fisher in The Half-Way House will replace the Kapt. Kidd act.

NEW WEEKLY TO START HERE

First Publication of The Wisconsin Leader on April 24

The formal announcement of the entrance of the Nonpartisan League into Wisconsin is to be announced in the first publication of The Wisconsin Leader, a weekly to be published here in Madison by the league.

The first number of this weekly will be issued on April 24. F. A. Harding of the Nonpartisan League will arrive in Madison about April 15 to take charge of the preliminary work in bringing out the paper. R. M. McClintock, editor of the Fargo Daily Courier-News, the leading daily in North Dakota, is being considered as the permanent editor of the publication.

The paper will start with a circulation of 20,000 and will go to every member of the league in Wisconsin. A large number of organizers are now at work in the state and it is stated that the membership will show a big increase by fall.

The Wisconsin Leader will be printed in the plant of The Capital Times.

FISHING ALREADY

NEENAH— Small sized catches of pike and pickerel are being reported by fishermen in this vicinity. A good fishing season is indicated by these early successes, it is pointed out.

MADISON HIT BY WALKOUT OF RAIL MEN

Switchmen's Strike Ties Up Freight Bound for East

MAY CALL MILITIA

Entire Police Reserve at Chicago Yards; Fear Riot Call

The Chicago, Milwaukee & St. Paul railroad officials here have received orders that no freight shall be accepted for Chicago or points east which necessitate shipment through Chicago until further notice. No men at this end of either of the roads have walked out, it was stated. Passenger service on the St. Paul is entirely normal.

The Illinois Central is accepting freight on its own lines to Chicago, according to a statement from officials of that road here. Its passenger schedule is also being maintained.

No freight of any kind, whether a carload or less than a carload, will be accepted by the Chicago & Northwestern railroad for Chicago or any point east of that city, according to an announcement by the local agent, F. J. Zoelle, Monday morning. The strike of the switchmen and the heavy snowstorm which struck Chicago Sunday are responsible for these orders which come from Chicago.

So far the passenger service is running at normal schedule, said Mr. Zoelle, but it is not known how long it can be continued.

Service Is Crippled

CHICAGO — Train service throughout the Chicago district, already seriously crippled by a heavy snowstorm, virtually was demoralized Monday by the spread of an unauthorized strike of switchmen, according to reports from the eleven railroads affected.

Mr. Garrity said the situation was serious and added that "it may be necessary to call out the militia and declare military control in the yards."

Approximately 2,500 switchmen were out at midnight. The strikers asserted 9,000 men would be affected Monday and predicted a "complete tie-up of freight traffic and serious impairment of interurban service."

Call Strikers "Outlaws"

After a conference with representatives of the Brotherhood of Railway Trainmen, with which the switchmen are affiliated, and the Switchmen's Union of North America, the General Managers' association declared that there "would be no compromise with the strikers."

Sixty per cent of the switch engines in Chicago are out of service, the managers stated, due to an "outlaw" organization which has presented demands for rates of pay that already had been presented to the railroad organizations by the Brotherhood of Railway Trainmen and the Switchmen's Union of North America.

"These demands are being handled by the wage conference at Washington and must, under the transportation act, be concluded before the labor board, yet to be named by the President."

The statement added that all railroads centering here have contracts with the striking switchmen.

Unions Issue Recall

Officials of the big unions have declared the strike "illegal," ordered the men to return to work and are cooperating with the railroads in attempting to break the strike.

The trouble broke five days ago, switchmen in the Chicago district yards of the C. M. & St. P. R. R. going on strike. The Illinois Central and Northwestern were next affected, the strike spreading to the other railroads Sunday. The Chicago switching district covers a radius of 30 miles and in it 25,000 cars are handled daily. The yardmen make up and "break" all trains in that area, also "spotting" cars at loading and unloading platforms.

Make Wage Demand

The demands of the "outlaw" organization, the recently formed Chicago Yardmen's association, are:

Foremen of all yard and transfer engines, $1 per hour, yard helpers, 95 cents an hour; switch tenders, $5 a day for attending not more than three switches; helpers rate of pay to apply at 95 cents an hour; time and a half for overtime, Sundays and all legal holidays, and where they are required to work more than 8 hours on Sundays or holidays double time for all time exceeding 8 hours.

MICHAELS-STERN VALUE-FIRST CLOTHES

There is a waste basket in every man's mind

and into it pours the things he doesn't believe.

For example; We know a certain Mr. Perkins, who because of his exceptional build, really does require made-to-measure clothing.

When Perkins reads a ready-to-wear advertisement "WE CAN FIT YOU" he scowls, pulls over the basket and BANG.

We don't blame him!

Most men DO NOT need a tailor's attention—but that is no excuse for fibbing to the man who does.

We say this; our Michaels Stern ready-to-wear clothing will fit 98% of America's voters, but if you are in the 2% class—why then, we'll have to get along with selling you your hats and furnishing goods.

FOOD PRICE PROBE STARTS AGAIN SOON

Subpeonas Have Been Issued for April 19 and 20

Twenty-two persons will be served with subpoenas to testify on food prices at the second hearing by the state division of markets in Milwaukee to be held April 19-20.

Report of the findings and recommendations will be submitted by the division of markets to the next session of the legislature, or at a special session if the matter of control of food prices is included in the call.

The hearing held in March covered market conditions in potatoes, milk, sugar, canned peas and eggs. The testimony of leading dealers and commission men showed that 97 per cent of Wisconsin potatoes are sold outside of the state and that the Chicago market determines the price for Badger potatoes.

Evidence indicated that three Milwaukee dairies control 85 per cent of the city milk supply, while the remaining 15 per cent is distributed among 30 small dealers. One witness stated that the prices on sugar were due to the failure of the United States to purchase a sufficient share of the Cuban crop and that the shortage in Wisconsin was accentuated by the ruling of the U. S. sugar equalizing board which deprived this state of 10,000,000 pounds of sugar by prohibiting eastern cane sugar from coming west but at the same time permitting western beet sugar to go east.

A prominent pea packer estimated that the cost to the canner of a can of peas is 10 cents and emphasized that Wisconsin canneries not only sold to the five meat packers but were in some instances actually owned by the meat packers, prior to the recent dissolution suit which divorced the packers from certain sidelines.

The most significant fact revealed at the hearing was that a mercantile exchange in Chicago, composed of a hundred dealers of that city, speculated in futures on eggs and by controlling 90 per cent of Wisconsin eggs fixed the price for the coming fall six months in advance.

Industrial Meet Is Summoned

The third Industrial Service conference will be conducted by the industrial commission at Milwaukee, on April 26th to 28th. This will be built around the annual banquet of the safety and sanitation committee of the Milwaukee Association of congress. As in former years, however, the conference will be statewide.

The industrial commission announces that at this conference there will be sessions on industrial relations, on problems of women and children in industry, on the prevention of occupational diseases and on industrial safety. There will also be a special evening session on "Teaching Safety in the Public Schools." The program also includes a discussion of housing problems, apprenticeship and the child labor law. The minimum wage law and the workmen's compensation act of this state will be discussed by two speakers each, one representing the views of employers and the other of employes.

Capitalization of Book Co. Increased

The Eau Claire Book and Stationery Co., which has held the state's contract for books in the township library list for the past 12 years, filed amendments to its articles of incorporation Saturday increasing its capitalization from $40,000 to $150,000. Officers are William J. Starr, president; J. D. R. Stevens vice president; E. M. Hale, secretary; and George J. Nash, treasurer.

Other incorporations were the R. H. Sinke Music Co., Milwaukee, $50,000; Camp Dixon Cheese association, Cumberland, $50,000; The Hull & Holtan Cooperative Cheese Co., Abbotsford, $5,000.

Badger 1919 Egg Business $14,000,000

Egg production in Wisconsin for 1919 amounted to $14,000,000, secured from 9,000,000 chickens raised within the borders of the state. The average chicken produced $1.50 worth of eggs. George J. Weigle, dairy and food commissioner predicts that even better results will be obtained this year.

Seated at luncheon with Senator La Follette the other day was a little girl.

"And where do you live?" asked the senator of the little miss.

"Oh, I live in a big white house," she replied.

"Well, you're lucky," said the senator, "I've been trying for years to get into a White House, but haven't been able to."

"Then you better come and move into ours," was the ready reply.

Rotary Club Will Tag Voters Tuesday

The electors of Madison will again be presented with a small tax as they leave the polls Tuesday, to be worn for two days as an emblem of citizenship.

The Rotary club furnishes the tags in an effort to get every elector in the city to do his duty by going to the polls.

The organization is not interested in partisan politics, but is taking this as one of the methods to assist in making better citizens. Rotary does not care how you vote, but it does want every elector in the city to cast his ballot on Tuesday and at every other election.

Loan of Ten Billion To Be Refunded

WASHINGTON — Plans of the treasury for refunding the $10,000,000,000 of loans to foreign governments and the interest for the first three years will be carried out, the House ways and means committee have decided that additional legislation was not necessary. Chairman Fordney announced Saturday that he had communicated the committee's decision to Secretary Houston.

Conservation Body Cannot Change Laws

The state conservation commission can not move the bass season back to its former time of June 1 even if it wished to do so, according to W. E. Barber of the commission. Petitions are coming to the commission in large numbers asking that the season be moved back. The commission is empowered to place further restrictions on the game laws, but can remove none imposed by the legislature.

Invoker of Spirits Pays Fine of $500

BELOIT—Mrs. Lina Montalto was fined $500 and costs in court here on the charge of operating a confidence game by pretending to be a spirit medium. CASE APPEALED

Following a temporary award of $195.07 to John Calva, the case of the Wisconsin Construction Co., 639 W. Wilson St., and the Builders' Limited Mutual Liability Insurance Co. against Calva, has been appealed to the circuit court. The accident in which Mr. Calva was injured occurred last October.

LAKE TOO COLD FOR CANOEING

Athletic Department Warns Students to "Keep Off the Water"

This is the season of the year when we are often reminded—through disaster—of the ancient Indian legend which tells of the curse given by the departing tribes as they left the shores of Mendota. The story tells of the departure of the tribes and the curse evoked—that Lake Mendota in revenge for the theft of the Indians' best loved home, would each year claim a white person as its toll.

Through carelessness and thoughtlessness this toll has often been exacted and the department of physical education yesterday sounded a warning to students who may be lured out by the bright spring weather and the tempting water.

The intense coldness of the water at this time would make it impossible to cling to a canoe for more than a few minutes and an upset in the water would without doubt mean death to the occupants. An upset is very liable to occur because of the sudden squalls which at this time of the year do not give the canoeist time to make shore.

The life saving station is being put in readiness and the department expects to have the life saving launch in the water by April 8, but just at this time the station is not in position to render much assistance.

Keep off the water until such a time as boating can be a pleasure to yourselves and no anxiety to your friends.

Department Will Not Act in Movie Case

WASHINGTON — Holding that the business of presenting theatrical entertainments is not interstate commerce, the department of justice Saturday returned to the federal trade commission the complaint against Vaudeville managers association.

Assistant to the Attorney General Ames said the subject twice had been before the department and each time the department held that since production of theatrical entertainments was not interstate commerce, no action could be taken under the Sherman anti-trust act.

The feature exhibit of Madison's ninth and biggest automotive show to be held at the Steinle plant, Atwood ave., April 7-10, will be Mrs. H. L. Potter's third airplane, which was shipped from Waukegan, Ill., Saturday. The stage is already set for the monster show, which will open in full swing Wednesday morning at 10:30. Every available space has been sold for the exhibits of new automobiles, tractors, trucks and accessories, which are valued at thousands of dollars.

HOOVER'S NAME ON TWO TICKETS IN MICHIGAN

DETROIT, Mich.—Michigan voters were Monday registering their preference for presidential nomination with 13 candidates—seven republicans, five democrats and one socialist—seeking endorsement.

A heavy vote is in prospect, although a large portion of the state is covered with two to six inches of snow and country highways are drifted several feet deep in places as a result of the Easter storm.

Confidence in the outcome was expressed at the headquarters of Gov. Lowden, Gen. Wood and Senator Johnson, all of whom made campaign tours. Other republican candidates were General Pershing, Senator Miles Poindexter and William G. Simpson of Detroit.

Herbert Hoover's name appeared on both the republican and democratic tickets.

Attorney General Palmer was the only democrat to campaign through the state, the others on that ticket being William G. McAdoo, William J. Bryan and Governor Edwards of New Jersey.

Eugene V. Debs was the socialist candidate.

I Question. If municipal ownership wins must we buy the street car lines?

Answer. No.

II Question. If municipal ownership wins what happens?

Answer.
1. The railroad commission will fix the price.
2. If the Montgomerys don't like the price, they can have the court set the price.
3. If the people don't like the price, they can have another referendum and vote it down.

III Question. If municipal ownership wins, what good will it do?

Answer.
1. We will get all the facts about the street railway company.
2. The voters will find out exactly where their "nickels" go.
3. Then when the voters finally vote on buying the street railways they can do so intelligently.

IV Question. If municipal ownership is beaten what happens?

Answer.
1. NOTHING.
2. More one man cars.
3. No extensions.
4. Not enough new cars.
5. No paving of street car line streets.
6. Same old service.
7. Tenements instead of home owners; continued and higher rents because city cannot develop.

KIWANIS HEARS CAR DEBATE

City Attorney Ryan and Frank L. Gilbert Discuss the Subject

That the street car company is in default for large sums of money due the city for paving, that it has been granted liberal extension of time to meet these payments, that it is bonded now so heavily that it can borrow no more money either to do the double tracking that has been ordered, or to make extensions that are needed, these were the principal points brought out by City Attorney Wm. Ryan in his talk this afternoon before the Kiwanis club.

Mr. Ryan said there is no question of socialism involved in the municipal ownership question.

In introducing the topic President Dudgeon said it was not the intention to have a debate or to commit the club to any policy but only to present the facts from two points of view.

Mr. Ryan gave a clear and succinct review of the history of the city's controversy with the railroad company. In regard to their default in the payment of paving taxes he said the company was given the privilege of paying $50,000 which it owed, in yearly installments of $5,000 but it had met only four of those installments. He explained the financial condition of the road, its indebtedness of $1,770,500 and showed how its interest charges and operating expenses nearly equalled its income.

However, he pointed out that the company is now doing a large business, the number of passengers being carried being much larger than ever before. He said the serious feature of the problem is not so much the service which the company is rendering and not so much the indebtedness of the company as its inability to provide for the growing transportation needs of the city.

Attorney Frank L. Gilbert, who was a member of the investigating committee, was the other speaker. While denying that there is any water in the stock of the Madison company he acknowledged that the purchase price which the Montgomerys paid for the road, $300,000 was far in excess of the physical valuation of the property.

"There is no use talking about water which has passed the wheel," said Mr. Gilbert. "The only question for us to consider is whether the municipality is likely to furnish us with better service at the same cost or less."

Mr. Gilbert contended that the management of such a public utility as the traction company is not properly a municipal function. It was throwing a bug business into the realm of politics. He criticised the contention that it might be possible or practical to issue bonds and market them for the full purchase price of the road. He said it was like a person buying a residence and expecting to place a mortgage on it for the full purchase price.

John Cramton of Sumner & Cramton was the "silent booster of the day, and Prof. J. G. Mack, state engineer won the prize, which was delivered without being wrapped.

The provisions of the constitutional amendments to be voted upon were explained by F. M. Wilcox, and both recommended as worthy of passage.

A letter of thanks of the Community Music club was read acknowledging the co-operation of the Kiwanis club in making a success of the Easter caroling.

"LIGHT SAVING" PLAN OPPOSED

Local Farm Authorities Point Out Defects of Proposals

Opposition to the "daylight saving" plan proposed for Madison is steadily developing in the outlying country districts.

While the sponsors for the plan point to what they believe would be a more satisfactory adjustment of their "waking hours" the country communities see in it but little advantage for the city, and of overbalancing disadvantage to the farmers.

"The plan proposed would, if adopted, add a further obstacle to farm production in Dane county," said A. W. Hopkins, secretary of the Wisconsin Live Stock Breeders' association, in an interview Monday morning. "It would remove the 35 townships of this county as far away in time from Madison, as Dane county is distant from North Platte, Nebraska.

"By adopting the plan the city would tell the farmer to come to Madison at a time convenient to himself—when the business men of his county seat desire to see him. While one part of the county would have Central time the other would have mountain time, and each would be confused as to the time of engagements, railroad activities, etc. The plan embaresses the major part of the county, because of a hazy and negligible advantage to people of the city."

"Daylight saving proposals are not well received by people in the outlying communities," says B. H. Hibbard, rural economist at the College of Agriculture. "They believe that it puts their business hours out of joint. Families sending their children to school in the city may be discomfited considerably. But the workers in the city believe a longer evening would be more pleasant. Some mothers in the city have found, however, that it is unnatural for the children to go to bed until it is actually night time and have found the plan poorly suited to their program. It is a choice between certain advantages for the people of the city, as against the disadvantages as the farmer sees it."

R. A. Moore, agronomist at the College of Agriculture, and secretary of the Wisconsin Experiment Association, regards the plan as rather ridiculous.

"It is certain," he declares, "that the railroads will not alter their time for use, nor will the mails be changed.

We must not overlook the effect on farm labor, the securing of which is already a difficult problem. The plan to fight the farm in this way will do far more harm than good."

SENATOR I. L. LENROOT PLEADS FOR UNINSTRUCTED WISCONSIN DELEGATION TO THE NATIONAL REPUBLICAN CONVENTION

In a letter to Geo. A. West, chairman of the Republican State Central Committee, Senator Lenroot writes:

"I sincerely hope that all of the list of uninstructed delegates will be elected Tuesday. They are men who, if elected, will use their own independent judgment for the best interests of the country and the party.

"Wisconsin can, if it will, have a large influence at the National Convention, but only if the delegates elected are known to be independent and not under the control of or subject to the dictation of any individual. The delegates should represent the will of the people electing them, not the will of some man not before the voters at this time. In other words, they should use their own judgment as to what is for the best interests of the people and not allow anyone to do their thinking for them.

"I have been informed that the placing of the opposing list of delegates in the field is the beginning of an organized fight to defeat me next fall at the primary. While the result of the delegate election will not necessarily affect the result of the September primary, I hope that my friends will not vote the ticket supported by my opponents, and thus encourage them.

"I hope to see a Republican candidate nominated who is Progressive, and also a Progressive platform adopted. If the uninstructed delegates are elected, they will really participate in the proceedings of the Convention and not merely stand at one side and criticise it. Wisconsin Republicans can best aid in securing such a candidate and such a platform by supporting the 'uninstructed' delegates."

—Senator I. L. Lenroot.

High Cost of Borrowing Means High Yield for Investors

The cost to large corporations of borrowing money has gone up, like everything else, with the result that their securities in the form of sound, safe investments are paying the investor the highest returns on his money he has been able to get in years.

Advantages of Investing in Short Term Investments

Short term investments, such as a Three-Year Gold Note, are the most desirable for those who prefer a high return on their money for a brief period, and who wish to reinvest their funds periodically to meet changing conditions in the money markets.

A Wisconsin Investment Suitable for Wisconsin Investors

The Eastern Wisconsin Electric Company, serving upwards of 110,000 people in Wisconsin with various kinds of public service, has issued Three-Year 7% General Mortgage Gold Notes, which are offered to investors at 98 and accrued interest, to yield 7¾% on the investment.

Fifteen Wisconsin Communities Served including Sheboygan, Fond du Lac and Oshkosh

Four communities, including Sheboygan and Fond du Lac, receive electric light and power direct; eight communities are served electrical energy at wholesale: Fond du Lac is served with gas, and Sheboygan, Fond du Lac and Oshkosh with local and interurban railway service.

Our Reasons for Highly Recommending These Notes for Investment

Before purchasing these notes with our own money we made the fullest investigation as to the Company, its property and management. We found the Company in excellent financial condition; its property, most modern in construction and efficiently operated, and the management well regarded and thoroughly experienced in the conduct of its highly technical forms of service.

Steadily Increasing Earnings and Dividend Record of the Company

The earnings of the Company have increased steadily and are now more than three times the annual interest charge on this entire issue after providing interest on all its prior mortgage indebtedness.

The Company has paid 7% dividends on its preferred stock since its organization.

Taking Advantage of High Yield Investment Opportunities Now

As universally as it is understood that present high prices will soon come down, it is equally clear that today's investment opportunities will not again present themselves for a long time. The shrewd investor is the one who is putting his money to work earning 7¾% while such investments are possible to get.

This Issue Has Been Authorized by the Railroad Commission of Wisconsin.

THE "BLUES"
Caused by
Acid-Stomach

Millions of people who worry, are despondent, have spells of mental depression, feel blue and are often melancholy believe that these conditions are due to outside influences over which they have little or no control. Nearly always, however, they can be traced to an internal source—acid-stomach. Nor is it to be wondered at. Acid-stomach, beginning with such well defined symptoms as indigestion, belching, heartburn, bloat, etc., will, if not checked, in time affect to some degree or other all the vital organs. The nervous system becomes deranged. Digestion suffers. The blood is impoverished. Health and strength are undermined. The victim of acid-stomach, although he may not know the cause of his ailments, feels his hope, courage, ambition and energy slipping. And truly life is dark—not worth much to the man or woman who has acid-stomach!

Get rid of it! Don't let acid-stomach hold you back, wreck your health, make your days miserable, make you a victim of the "blues" and gloomy thoughts! There is a marvelous modern remedy called EATONIC that brings, oh! such quick relief from your stomach miseries—sets your stomach to rights—makes it strong, cool, sweet and comfortable. Helps you get back your strength, vigor, vitality, enthusiasm and good cheer. So many thousands upon thousands of sufferers have used EATONIC with such marvelously helpful results that we are sure you will feel the same way if you will just give it a trial. Get a big 50 cent box of EATONIC—the good tasting tablets that you eat like a bit of candy—from your druggist today. He will return your money if results are not even more than you expect.

NONPARTISANS FOR SHIPSTEAD

Is Farmer-Labor Choice for Governor of Minnesota

BY E. B. FUSSELL.

ST. PAUL, Minn.—Absolute harmony prevailed between the Minnesota state conventions of organized labor and the Nonpartisan league when they met in St. Paul and selected the following candidates for state office:

Governor—Doctor Henrik Shipstead.

Lieutenant governor—George H. Mallon.

Justice of the supreme court—George L. Siegel. Secretary of state—Thomas Vollom. State treasurer—Miss Lily Anderson. Attorney general—Thomas V. Sullivan. Railroad and warehouse commissioner—Paul I. D. Ostby.

Doctor Shipstead, Vollom and Ostby were put forward primarily by the farmer forces, and Mallon, Sullivan and Siegel by the labor forces, while Miss Anderson was selected at the request of the newly enfranchised women voters, but the action of both conventions on all candidates was unanimous.

In each convention candidates for all offices were nominated from the floor. Conference committees then met together, the labor conferees reporting the sentiment in their convention to the farmers, and vice versa. The committees then reported back to the conventions, with recommendations, and in this way the ticket was selected.

Doctor Shipstead served in the legislature with a 100 per cent labor record. He was raised on a farm, worked his way through school and college and has been a leader in the progressive political movement in Minnesota.

Captain Mallon, candidate for lieutenant governor, is one of Pershing's "100 war heroes," but opposes military training. He is business agent of the Minneapolis Building Trades council.

A complete farmer-labor congressional ticket will be put forward in the coming campaign. Minnesota already has two congressmen elected by the joint efforts of organized labor and the organizer farmers—W. L. Carss and Oscar E. Keller—both elected on independent tickets against candidates of the republican and democratic parties.

TELESCOPE MEN REPORT APRIL STAR MOVEMENTS

Observatory Will be Open to Students Who Wish to See Planets

Astronomical data for the month, furnished by the Washburn observatory, has no clues to offer concerning hydraulic displays in April showers but has detailed information as to the movements of the stars in the heavens.

Mercury is a morning star and reaches greatest elongation west, April 17. It will then rise about 45 minutes before the sun, slightly south of the east point of the horizon. Venus is still a morning star but is becoming lost to view in the light of the sun. Jupiter is the brilliant star near the meridian at a high altitude in the early evening. Saturn reaches the meridian later in the evening and at a lower altitude. Mars rises to the southeast in the early evening and reaches the meridian at about midnight.

Those gay old dogs, Mars, Saturn and Jupiter, still gather for the nightly jollification at the meridian. Mars is a little weary these days after being such a popular lad for the last few years. Popularity is a great enervator.

The principal fixed stars visible during the month in the evening hours are as follows: To the west: Capella, Aldebaran, Castor and Pollux, Procyon, Sirius, and the bright stars of the constellation Orion. To the east: Arcturus and Spica.

Visitors will be received at the observatory, if the night is clear, on the evenings of the first and third Wednesdays of the month, April 7 and April 21, from 7:30 to 9 o'clock.

MARINETTE—Charles F. Bergheim 70, head of the Garder & Bergenheim Knitting mills of Marinette, succumbed to a stroke of apoplexy. The attack came without warning just as he had left the dinner table at his home.

The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected.

Nightly applications of Vick's VapoRub will aid nature to clear up that inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to The Vick Chemical Company, 235 Broad Street, Greensboro, N. C.

ELECTION NOTICE

To the Electors of the City of Madison, Dane County, Wisconsin:

Office of the City Clerk, March 26, 1920.

Notice is hereby given that a Judicial and Municipal Election is to be held in the several wards and election precincts in the city of Madison on the

SIXTH DAY OF APRIL, 1920

at which the officers named below are to be chosen:

The names of the candidates for each office to be voted for whose nominations have been certified to or filed in this office are given under the title of the office, each in its proper column, together with the question submitted to a vote, in the sample ballot below.

INFORMATION TO VOTERS

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place and giving his name and residence will receive a ballot (or ballots) from the ballot clerk which must have indorsed thereon the names or initials of both ballot clerks and no other ballot can be used. Upon receiving his ballot the voter must retire alone to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. The voter should make a cross mark (X) at the right of the name of the candidate for whom he wishes to vote in the square made for that purpose. A ballot so marked, and having no other mark, will be counted for the candidate. A voter may vote upon a question submitted to a vote of the people by making a cross (X) or mark in the square at the right of the answer which he intends to give.

If he wishes to vote for a person whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled it must be returned to the ballot clerk who must issue another in its stead, but not more than three in all to any one voter. Five minutes time is allowed in booth to mark ballot. Unofficial ballots or memorandum to assist the voter in marking his ballot can be taken into the booth and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot (or ballots) to be placed in the box and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two of the election officers in marking the same, to be chosen by the voter; and if he declares that he is totally blind, he may be assisted by any person chosen by him from among the legal voters of the county. Presiding officer may administer an oath in his discretion, as to such person's disability.

To vote for a person whose name is printed on the ballot, mark a cross (X) in the square after the name of the person for whom you desire to vote. To vote for a person whose name is not printed on the ballot write his name in the blank space provided for that purpose.

Said election to be held and conducted, votes canvassed and returns made in accordance with law.

O. S. NORSMAN,
City Clerk.

MRS. M. E. PROCTOR, who says she is so grateful for what Tanlac has done for her that she wants the whole world to know about it. Declares her complete recovery after so many years of suffering seems too good to be true.

"I am so grateful for what Tanlac has done for me that I want to tell the whole world about it," said Mrs. M. E. Proctor, of 717 W. First St., Los Angeles, Calif., when speaking of the splendid results she had obtained from the medicine. "To think that I should have suffered for so many years, and spent hundreds of dollars in vain efforts to get relief and then find complete relief after taking only four bottles of Tanlac, seems to good to be true."

"Yes, indeed; for years and years I suffered terribly from stomach trouble. Everything I ate seemed to form gas and so affected by heart and breathing that I would have palpitation and would turn purple in the face in my efforts to get my breath. These attacks caused me intense suffering and were so bad that I was frequently confined to my bed and would have to be attended by some member of the family for fear I should succumb during one of the attacks.

"I got awfully thin and was so weak that I had to give up all household duties. I often went for two weeks at a time without getting a good night's sleep and as a consequence became very nervous and low-spirited. In fact, I was a confirmed invalid and my friends did not expect me to live very long.

"I sat reading the paper one evening when my eye caught the statement of a lady who had suffered with similar trouble to my own and telling how she had been wonderfully helped by Tanlac. I sent for a bottle and started taking it and the results have been most surprising.

"My appetite is splendid now and I can eat most anything without any distress afterward. The gas has stopped forming and I no longer have palpitation or that smothering feeling. I sleep sound all night long and get up feeling rested. I am in better health today than I have been for 40 years and I feel years younger.

"I don't believe there ever was as good a medicine made as Tanlac."

Tanlac is sold in Madison by the Luckey Pharmacies, in Mazomanie by Geo. A. Shields, in Mt. Horeb by C. E. Robertshaw and by the leading druggists in every town.—Adv.

REMARKABLE RECOVERY

Due to Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic troubles and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did me no good at all—my pains were worse instead of better. I began using the Vegetable Compound and got a change from the first. Now I will say and advise any one going through the Change of Life to try it. It cured me after I had given up all hope of getting better. You can publish this and I will tell any one who writes to me the good it has done. Mrs. MARGARET DANZ, 743 N. 7th Street, Philadelphia, Pa.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction, that this old medicine has relieved many suffering women.

Once You Try Mazola You Will Never Go Back to Lard or Butter for Cooking—or Olive Oil for Dressings

OF interest to every wide-awake housewife are these *important facts* about the general use, the quality and the unusual *economy* of Mazola.

Deep Frying

No fat excels Mazola for deep frying. It is far *better* and a great deal *more economical* than lard or compounds. Mazola is 100% pure vegetable fat. It contains no moisture. Butter and Lard contain moisture. The same lot of Mazola can be used over and over again—even after frying fish and onions. Merely straining makes it perfectly fresh for use as a shortening. It carries no odors or flavors from the foods cooked in it and *does not* smoke up your kitchen.

Shortening

The purity and richness of Mazola best demonstrates itself in the fact that ¼ to ⅓ *less* Mazola is required than that of butter or lard. This means that your cakes and pie crust will not only be light, rich and easily digested but will cost you less to prepare. Being an oil, the tiresome "creaming-in process" is eliminated. Mazola is always ready for instant use.

Salad Dressings

Thousands of Italians, who certainly *know* olive oil, use Mazola. Not only because it costs about half that of the best olive oil, but because of its richness, quality and purity.

For French Dressing, Mazola blends readily—and mayonnaise made with Mazola will keep for weeks without separating.

Important to Housewives

One of the most severe comparative tests ever used on a cooking fat gives unqualified FIRST HONORS to Mazola.

Understand the remarkable economy and high quality of Mazola by these figures.

FRENCH FRIED POTATOES

2 lbs. of Mazola	fried	26 lbs. Potatoes
2 lbs. of Lard	"	8 " "
2 lbs. of Compound	"	11½ " "

Note: Mazola goes over three times as far as lard; is twice as economical as compound.

FISH

2 lbs. of Mazola	fried	25 lbs. Fish
2 lbs. of Lard	"	15 " "
2 lbs. of Compound	"	20 " "

Note: Compare the figures yourself. Even with frying fish Mazola does not smoke up your kitchen.

DOUGHNUTS

2 lbs. of Mazola	fried	216 Doughnuts
2 lbs. of Lard	"	144 "
2 lbs. of Compound	"	168 "

Note: All doughnuts were the same size. Mazola-made doughnuts are more easily digested.

P. S. Reasons for these remarkable figures are explained in column to the left. Read it.

JURY VERDICT CONFIRMS REPORT

Verdict in Case of Remonstrances in Drainage District Returned

A special verdict, which, with one or two exceptions, is the same as the report of the drainage commissioners, was returned by the jury in the matter of the Door Creek drainage district and the remonstrances of the T. O. Thompson estate and others.

Residents of the town of Dunn had complained that the commissioners assessed too large benefits against their property. Assessments were made to cover the cost of a proposed drainage ditch.

The jury verdict declared that the 21 acres of James McConnell in section 13 would be benefitted $100, the 19 acres of the L. J. Alsmoe estate in section 12, $200, the 21 acres of O. J. Elvehjem in section 12, $280, the estate of T. C. Thompson in section 12, $175, the P. Brickson estate in section 12, $200, the A. & A. Brickson estate in section 12, $200, the 29 acres of Anna Thompson in section 12, $727, and other property of Anna Thompson, $170.

Best Treatment for Catarrh S.S.S. Removes the Cause

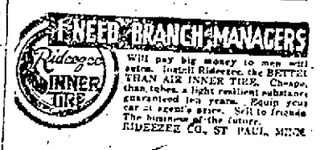

From the Blood.

Once you get your blood free from impurities—cleansed of the catarrhal poisons, which it is now a prey to because of its unhealthy state—then you will be relieved of Catarrh—the dripping in the throat, hawking and spitting, raw sores in the nostrils; and the disagreeable bad breath. It was caused in the first place because your impoverished blood was easily infected. Possibly a slight cold or contact with someone who had a cold. But the point is—don't suffer with Catarrh—it is not necessary. The remedy, S. S. S., discovered over fifty years ago, tested, true and tried, is obtainable at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If yours is a long-standing case, be sure to write for free expert medical advice. We will tell you how this purely vegetable blood remedy cleanses the impurities from the blood by literally washing it clean. We will prove to you that thousands of sufferers from Catarrh, after consistent treatment with S. S. S. have been freed from the trouble and all its disagreeable features. Don't delay the treatment. This Tells You How to Get Benefit of the Best Senna

Finest Grade of Egyptian Senna Leaves used in compounding Dr. Caldwell's Syrup Pepsin.

PROMINENT importers and wholesale dealers in crude drugs and medicinal herbs gathered from all parts of the world do not hesitate to say that the market for the better grades of medicinal herbs, roots, oils, etc., is practically confined to the leading manufacturers of the so-called package medicines, who buy only the very best, and that the manufacturers of Dr. Caldwell's Syrup Pepsin are the largest users of the best grade of Egyptian senna leaves in the world.

The potency of a tea brewed from senna leaves to relieve constipation has long been recognized, not only by the medical profession, but by the public generally; in fact, senna has been known and used in medicine for more than five centuries. The cheaper grades of senna, such as are usually sold at retail, have, however, a tendency to gripe and cramp which makes their use unpopular with most people.

In Dr. Caldwell's Syrup Pepsin the finest Egyptian senna is combined with pepsin and other valuable agents, essential oils and pure cane sugar syrup to make an exceptionally valuable tonic-laxative for the relief of constipation and resulting disturbances of the stomach and bowels. The complete formula is plainly printed in English, French, and Spanish on every package. Thousands who formerly bought an inferior grade of senna leaves now use Dr. Caldwell's Syrup Pepsin instead. It is sold in drug stores everywhere.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

START MOVE TO FORM WISCONSIN CLASSIC SOCIETY

A movement has been started to found a Wisconsin Classical association to further the interests of classics in Wisconsin.

At a meeting held Saturday morning in the Classical Seminary room of the library it was decided by the instructors in Latin and Greek to recommend to the Latin section of the state teachers' meeting in November that an additional meeting be held in April of each year at which questions be raised relating to Greek and Roman life, language, and literature. The spring meeting, if approved by the teachers' association, will be held about the time of the Annual Prize contest of the Latin League of Wisconsin colleges. Membership in the Classical association will be open to all advanced students and teachers in high schools, normal schools, and colleges in the state.

The conference yesterday morning was held in connection with the visit of Prof. Norman De Witt of the University of Toronto who has been lecturing this week to university graduate students.

Those in attendance were the graduate students in the Department of Classics and the members of the faculty.

NOT CANDIDATE FOR SENATE — REINSCH

MILWAUKEE — Dr. Paul S. Reinsch, until recently minister to China, spent a few hours in Milwaukee on his way back to Washington from the Pacific coast, where he delivered a lecture at one of the California universities and conferred with a number of business men on the subject of trade in the far east.

Dr. Reinsch, when questioned as to how he viewed the mention of his name in connection with the democratic nomination for United States senator, said that any idea of his taking the senatorship or any other public office was wholly in conflict with plans which he has made for the future. He was not in any sense a candidate for senator, he said, and nothing was farther from his mind than seeking public office. He added, however, that it is every citizen's duty to obey a popular mandate and should a general call of this character come to him to serve in the senate, the least that he could do would be to give it earnest consideration.

Good News for "The Mad" in Madison

If you were one of those unfortunates who failed to see Cecil B. De Mille's marvelous production

"Male and Female"

When it was shown here recently, we have good news for you. This wonderful photoplay will again be shown at the

The present owners bought the street railway property in 1905 because they had faith in the future growth of Madison and were willing to invest their money on that faith. During these fifteen years they have not only rebuilt the entire system but have largely improved and extended it so that, with the exception of a small area on Monroe Street, every home in Madison is within five blocks or less of a street car line.

While no street car service can be perfect and cars cannot always be placed at the corner the moment a passenger arrives there, yet the service has been good. We are today furnishing as good service as any city in Wisconsin is receiving, and doing it at a lower rate of fare than most cities in Wisconsin are paying.

The home-builder demands modern improvements before he builds his house. This means water and sewer as well as transportation. The street railway has generally penetrated into new territory long before,—in some cases ten to fifteen years before, the city has followed with water and sewer. And the city's problem is much simpler than that of the street railway because the city assesses to the abutting property owner most of the cost of extending water and sewer service while the street railway has to provide its own capital.

We believe that the progressive policy of the Railway Company in the past fifteen years has been a large factor in Madison's growth. Our policy in the future, should we remain the owners of the property, would be as it has been in the past, to give to Madison the best street railway service to be found anywhere in this country.

Tri-County League Incorporates; 8 Clubs In Circuit

LOCAL NINE CAN'T PLAY HOME GAMES

The Tri-County League assumed definite proportions Sunday when representatives from eight clubs met at the Capital Hotel and drew up articles of incorporation. The organization incorporates this week, and with the opening of the playing season less than a month away, the various clubs are beginning spring training this week.

E. J. Amundson of Cambridge was elected to the office of president of the circuit and E. C. Hein of Sun Prairie was made vice president. The office of Secretary-Treasurer went to C. Zach of Madison.

Enthusiasm Keynote

Enthusiasm was the keynote of the entire meeting, and the representatives of the various towns in the circuit announced that their various communities were back of the organization with a zeal and interest which promises certain success. Mass meetings were held in many of the league cities during the past week where the citizens pledged the league full support.

Oil Kipps Out

The Esser's Market team of Madison will be the Capitol City's only representative in the circuit. The Oil Kipps were invited to join, but decided to withdraw and confine their activities to the local industrial league. This decision made it necessary for the Esser's Market nine to schedule all games away from home as there is no available park in Madison where schedules games can be held.

Manager Zach decided however that the team could be kept in operation on a travelling schedule, and the first game of the season was arranged between the Madison nine and their old enemies, Cambridge, which will be played at Cambridge May 2. The Esser's line-up will be practically the same as last year with a few minor changes. Scoop Hoven will be in the box as usual with Russ Burmaster doing the receiving. Practice will be started this week.

Changes In Circuit

The eight clubs as finally arranged were slightly different from the announcement made a week ago, Middleton and Lake Mills getting franchises. The clubs and board of directors as voted Sunday, are:

Edgerton—B. H. Smith.
Waterloo—Dr. Jones.
Lake Mills—J. Miller.
Cambridge—E. J. Amundson.
Mt. Horeb—P. P. Brink.
Sun Prairie—E. C. Hein.
Middleton—W. S. Green.
Madison—C. Zach.

The tone of the games will be confined to amateur ball as much as possible, with home talent participating, it was decided. There will be some semi-pro players however. A call has been issued for umpires, and all competent arbiters wishing to officiate at Sunday games during the summer are requested to get into communication with E. J. Amundson at Cambridge.

Announce Prelims For Hanson Match On Tuesday—Bump

Announcement of preliminaries for the wrestling card featuring Matty Matsuda and Kid Hanson in Turner hall next Saturday night will be made tomorrow by Promoter E. L. Bump.

With the main affair a return engagement by a pair who went to a draw here two weeks ago, and some clever little fellows in the opening contests, the coming card promises to be the most attractive yet staged since the revival of the mat game in this city.

Interest in the sport is on the increase here. There was big demand for tickets at Galvin's, W. Main st., where the sale opened Sunday morning.

Dr. Bump has engaged Joe Steinhauer again as the third man in the arena. He will call the curtain-raiser at 9:15.

Kid Hanson, now is in Aberdeen where he is to appear twice this week, hearing that the Jap is to bring 25 Chicagoans to Madison Saturday night to seek bets on the go, wired Dr. Bump that he was ready to take his opponent on for a good sized sidebet. The bout is a winner-take-all affair, the first of the kind to be seen here.

ENGINEERS WIN COLLEGE MEET

Commerce Places Second, While L. & S. Team Lands Fourth Place

The Engineers won the inter-college track meet, held yesterday afternoon in the gym annex, leading the Commerce cinder men, by a 9½ point margin.

The results of the meet were as follows: Engineers, 47½ points; Commerce, 38 points; L. and S., 31½ points; Agriculture, 17 points.

Ribbons were given to men winning first, second, and third place in the events, irrespective of what their team standing in that event was. College insignia were awarded to men placing first in each event.

Tryouts for Sigma Delta Psi, honorary athletic fraternity, were held but none of the contestants succeeded in passing all of the requirements which were run off.

More tryouts will be held in June when the out-door events can be run off and those who failed to pass the requirement will be given another chance then. The list of those who tried out follows:

N. Martin, C. H. Wille, T. D. Jones, G. Stolley, G. Diehl, F. J. Schildhauer, H. L. Christianson, L. L. Wilder, W. Ramsey, W. J. Huer, H. M. Sanders, G. M. Sundt, C. E. Bartleff, R. Gibson, E. O. STAR'S RETURN BOOSTS GOPHER HOPES FOR TRACK

MINNEAPOLIS—Byron F. Johnson, captain of the University of Minnesota track team of 1917, is again eligible for competition. Johnson received a class room condition at the close of the fall quarter and was declared ineligible for athletics, but the exam in question has now been passed, and Coach Len Frank has had the stock in his cinder path team boosted several per cent.

Johnson holds the university record for the 220 yard dash and is holder of the Marine corps 100 yard dash record which he established at Quantico last year, negotiating the distance in 9 3-5 seconds. Johnson is considered as an Olympic possibility.

F. H. Stadsvold, one of the greatest basketball forwards ever developed at Minnesota, has returned to Minneapolis after a most successful year of coaching at the University of West Virginia. His basket tossers won notable victories over some of the best teams that the east could produce

BADGERS SPLIT EVEN IN MEET WITH CHICAGO

Win Wrestling Bouts But Lose Gym Match by 18 Points

Wisconsin won the dual wrestling meet from Chicago with two victories, and forfeitures in the remaining bouts, and was defeated by the Maroons in the gymnastic meet by 18 points yesterday afternoon. The finals of the all-university boxing tournament were held in connection with the meets.

Because of the sickness and ineligibility Chicago brought but two grapplers, Hatoski in the 125 pound class and Burnett in the 135 pound class. The remaining bouts were forfeited to Wisconsin.

Snider Defeats Hatoski

In the first bout Snider of Wisconsin defeated Hatoski. Snider took the offensive in the early part of the first round and by managing to stay on top most of the time was given the decision for that round. In the second go he again held the upper hand until five seconds before time was called when the Maroon pinned him to the mat. However, Snider retaliated in the third round by winning the referee's decision which gave him the bout.

In the second bout, between Peterman, Wisconsin, and Burnett, Chicago, neither man left his feet in the first round, making that round a draw. But in the second period, Peterman showed his superiority by throwing his man in 65 seconds with a double body hold and in the third round he cinched his bout by winning a decision.

Maroons Cop Gym Honors

Both teams of acrobats put up good exhibitions in the struggle for gymnastic honors but when the meet was finished the Maroons were ahead with an 18 point margin.

The final score was 192 to 174.

Captain Tasche starred for the Badgers and was high man of the meet, with 35 points to his credit. Inlow of Chicago placed second to Tasche, with 34 individual points. Aanison, Wisconsin, won the fencing event, beating Wood of Chicago 5 to 1.

The summaries:

Parallel bars—Tasche, Wisconsin, first; Inlow, Chicago, second; Schneidenbach, Chicago, third.

Side horse—Cripe, Chicago, first; Certain, Wisconsin, second; Schneidenbach, Chicago, third.

Horizontal bars—McHugh, Chicago, first; Pringle, Chicago, second; Morris, Chicago, third.

Tumbling — O'Shea, Wisconsin, first; Inlow, Chicago, second; Harris, Wisconsin, third.

Rings—Tasche, Wisconsin, first; O'Shea, Wisconsin, second; Kessler and Inlow, Chicago, tied for third.

Fencing — Aanison, Wisconsin, first; Wood, Chicago, second.

Clubs—Kessler, Chicago, first; O'Shea, Wisconsin, second.

In the fight for fistic honors, the following men won the title of university champion in their respective weights and were awarded gold medals: White, bantamweight; Lupton, featherweight; Dawson, lightweight; Lyons, welterweight; Koons, heavyweight.

A slight accident occurred in the second round of the middleweight bout, between Barnes and Kelley, when the fighters cracked their heads together and cut deep gashes in both their foreheads. It was necessary to send them to the clinic for medical attention and they agreed to fight it out later.

MARKETS

STRIKE AFFECTS CORN MARKET

Fresh Rises Caused by Tie-up Followed by Slump

CHICAGO — Fresh advances in the corn market Monday provoked general selling and brought about a sharp setback. At first owing to traffic delays due to the switchman's strike and to widespread storm effects there was a scarcity of offerings. On the ensuing bulge tho, commission houses turned with decided vigar to the bear side. Opening prices which ranged from ⅜c decline to 1¼c advance with May 1.63¾@1.65 and July 1.58¼@1.59 were followed by a tumble all around to well below Saturday's finish.

Oats like corn showed a sudden fading away of strength. After opening ¼@⅜c off to ⅜c advance including July at 82½@¾ the market underwent a material sag.

Fear that railroad labor troubles might have untoward results was responsible for much liquidation by holders. Later the market rebounded owing largely to a prevalent opinion that the switchmen's strike would be settled by tonight. The close was strong, 1⅛ to 3c net higher with May 1.65@⅜ and July 1.60@⅝.

Improvement in sterling continued as the day advanced. Demand bills reached 4.04¼ and cables 4.05; the highest since November 16.

SHORTS GAIN IN FIRST HOUR

Reaction in Oils and Motors at New York Market

NEW YORK — Shorts availed themselves of the unsettled foreign situations in the stock exchange Monday to exert pressure in various directions before the end of the first hour. Prices of oils, motors and steels reacted 1 to 6 points with concurrent heaviness in equipments and rails. Advances in specialties were cancelled and the entire list fell back.

The reversal was soon halted however, a few leaders rallying substantially on the further improvement of exchange, the British rate rising above $4 for the first time since last December. Easy money was another helpful factor, call loans opening at 7 per cent.

Additional rallies during the mid-session were based mainly on the further relaxation of call money to six percent. Crucible steel, general motor, motor subsidiaries and equipments were prominent at extreme gains of 2 to 4 points and food shares extended their early advances.

Highest quotations of the session were made in the broader buying of the final hour, crucible steel, the motor group and various specialties leading at gross advances of 3 to 10 points. The closing was strong.

WARM BLIZZARD SNOWS UNDER SOUTHWEST

Snow Two Feet Deep in Some Places; Six Inches in Chicago

(By the Associated Press)

CHICAGO—The middle and southwest today set about digging themselves out of record breaking Easter snowfalls. The "warm blizzard" as forecasters designated it, developed in the Texas Pan Handle and yesterday swept rapidly through the central west, today continuing steadily eastward, the snowfall ranging from six inches to two feet.

In the southwest cattle were reported to have suffered. There were few official reports of crop damage however.

The snow, driven into huge drifts by gales that averaged 30 to 45 miles an hour, buried railroad tracks, city boulevards and country highways throughout the affected regions. Telegraph and telephone communication was set off in some sections and in Chicago and some other cities electric service was crippled.

In Chicago where the snowfall approximated six inches, street car service was abandoned on some lines and many automobiles were stranded in deep drifts. Temperature in portions of the southwest dropped as low as 20 degrees, in the central west 27 was the minimum according to reports.

Sunshine and a temperature of not less than 50 degrees were forecast in Chicago today.

"FLU" CLAIMS 1,119 BADGERS

February Toll of Lives Totals 1,207, Says Report

The February toll of Wisconsin lives taken in the recent influenza epidemic was 1,119, reports indicate up to the end of March.

Deaths from all causes in February were 1,207. The average number for that month is 2,636. Excluding the pneumonia and influenza deaths from this total, the net result is equivalent to a mortality of 1,119 from the epidemic in that month.

February pneumonia deaths were 905 and influenza deaths 961. Other death totals were: Pulmonary tuberculosis, 1227; other tuberculosis, 20; cancer, 187; violence, 81; diarrhea, enteritis, under two years, 50; whooping cough, 46; scarlet fever, 30; meningitis, 20; measles, 18; diphtheria, 17; puerperal septicemia, 10; typhoid fever, 4.

Miscellaneous causes and their number were: suicide, 13; burns and scalds, 12; erysipelas, 12; accidental falls, 8; syphilis, 7.

NEW HEAD OF STATE HISTORICAL SOCIETY HONORED

Dr. Schafer Welcomed at Dinner in Madison Club

Dr. Joseph Schafer, now superintendent of the State Historical society, was welcomed at a dinner at the Madison club Saturday night given in his honor by the Madison curators of the society. Burr W. Jones presided.

Mr. Schafer is the fourth superintendent, his predecessors being Lyman C. Draper, Reuben G. Thwaites and Milo M. Quaife. Dr. Quaife is now editor of the society's publications, and Dr. Schafer head of the administrative end.

Dr. Schafer spoke on the need of promoting the organization of local historical societies throughout the state for the purpose of gathering material and working out historical problems. The extension of local historical work will be limited only by the State Historical society's financial resources, according to Dr. Schafer.

The guests at the dinner included: [illegible] Atwood, Prof. W. G. Bleyer, [illegible]ley W. Bond, O. D. Brandenburg, Charles E. Brown, Charles N. [illegible]n, Prof. W. J. Chase, Harry E. CAMELS STIR UP CANDIDATES

Circular on Personal Liberty is Issued; Bunn Resigns Office

The Order of Camels has riled a number of candidates at the election tomorrow.

A circular which has put in an appearance has listed candidates for the common council as being "For personal liberty" and "Against Personal Liberty."

Several candidates contend that they were never interviewed by anyone seeking to get their stand on the question. Henry C. Caesar, candidate in the fifth ward and B. A. Honeycomb, candidate in the third ward say that no member of the order ever approached them to obtain their views.

"I have lived in the ward for 18 years and the people know my record," said Mr. Honeycomb. "I have never been approached by anyone seeking to get my stand on this question."

It is said that the committee which made up the list comprises R. W. Jackman, Al Peltier, George Wiese, J. P. Butler and W. C. Glaglow.

Following is the classification made by the Camels:

For Personal Liberty—Mayor—Blied; Aldermen, first ward, Starr; second, Mason; third, Mautz; fourth, Dowling; fifth, Caesar; sixth, Fessler; seventh, Utter; eighth, Behrend, Schwoegler; ninth, Rupp, Meyer.

Against Personal Liberty—Mayor—Kittleson; Aldermen—first ward, Alford; second, Winrich; third, Honeycomb; fifth, McConnell; sixth, Johnson; seventh, Brown; tenth, Steffen, Sheffer.

Resignations of E. F. Bunn, sheik, and Harry Buser, trustee, will be acted on at the meeting of the Madison caravan of the Order of Camels Monday evening. Mr. Bunn did not make public his reason for resigning the chief office of the fraternal organization, recently organized here, but submitted a written resignation to the secretary, Cornelius Johnson, detailing his reasons.

GERMANS ARE NEARING ESSEN

Movement May Cause French to Occupy Rhine Valley

(By the Associated Press)

DUSSELDORF—The Reichswehr troops occupied Mulheim, east of Duisburg, Monday, the reds retreating to Essen and to the south. The Reichswehr are marching on Essen.

France May Act.

PARIS—French troops commanded by General De Goutte which are stationed along the Rhine are prepared to enter German territory, according to the Wiesbaden correspondent of the Matin. It is reported unofficially that the French government has decided to occupy cities on the right bank of the Rhine as a reprisal for the movement of German troops into the neutral zone fixed by the Versailles treaty.

The British government will decline to cooperate in the occupation of Frankfort, Darmstadt and other German cities, it is reported, but will favorably follow the action of France, realizing the importance of the situation.

In the southern part of the Ruhr district, the German government troops have advanced without resistance, but have encountered serious opposition in the central portion of the Ruhr basin. Two hundred persons have been killed in a fight near Duisburg.

SOCIALISTS IN IOWA VICTORY

(By the Associated Press)

DAVENPORT, Ia.— Dr. C. L. Barewald was elected Davenport's first socialist mayor carrying 12 out of 18 precincts. His plurality over Henry Jebens, rep., his nearest competitor, was 1,655.

The socialists carried all other city offices with the exception of treasurer. Charles E. Bobeson, rep., present incumbent retains this office. The socialists will also control the next council, electing five out of eight aldermen. Lower taxes, reduced street car fares and no issuing of municipal bonds except by vote of the people was the winning platform of the socialist.

Austrians Get Red Cross Easter Aid

VIENNA — Four thousand destitute Austrian civilians who were interned in foreign prison camps and are now temporarily lodged in municipal barracks outside this city received gifts from the Red Cross.

Each received a supply of sugar, coffee, cocoa, canned meats and crackers. Every child was given a package of chocolates and several cans of condensed milk, the gift of the Junior Red Cross of America.

Twenty-four hundred pairs of shoes, 1,000 womens and girls overcoats, 2,000 blankets and 2,000 pairs of stockings were also distributed.

Wisconsin Classical Body to be Formed

Lawrence, Milwaukee-Downer Ripon and Milton college professors were in attendance last week at the Latin conferences held by Prof. Norman W. DeWitt of Toronto university at Canada. A decision was reached Saturday morning at a meeting of the university to form a Wisconsin Classical association for the advancement of the interests of classics throughout the state, two meetings to be held annually, one in November at Milwaukee in connection with the State Teachers' association, and a second in April at about the time of the annual prize contest of the Latin League of Wisconsin colleges; an organization established several years ago under the leadership of the late Prof. Wright of Lawrence college.

DO YOU WANT THIS PROGRAM?

MR. VOTER, are you satisfied with the conditions which have brought about the present criminal cost of living?

Do you want to subscribe to the manner in which opinion unfavorable to those who are exploiting the people has been suppressed through the medium of the espionage law?

Do you want a program of militarism, that will be used to suppress the common man, fastened on this country?

Do you want a war with Mexico that will be fostered by Wall street interests?

These are but a few of the questions that you will be called upon to answer tomorrow.

Where do the uninstructed candidates stand on these questions?

There is no doubt as to where the progressive republican candidates stand on these question. Wisconsin tomorrow has an opportunity to register a protest that will be heard in the nation. If you want to register a protest against the reactionary program that it is proposed to fasten on this country vote for the following progressive republican candidates to the republican convention:

FOR DELEGATES-AT-LARGE—VOTE FOR FOUR

JAMES THOMPSON, La Crosse La Follette Progressive Republicanism	X
HENRY KRUMREY, Plymouth La Follette Progressive Republicanism	X
JOHN J. BLAINE, Boscobel La Follette Progressive Republicanism	X
EDWIN J. GROSS, Milwaukee La Follette Progressive Republicanism	X

THE DEBATE IS CLOSED

MADISON'S public debate on the question of municipal ownership has now been closed.

The debate has had its unusual aspects. The newspapers have been flooded with communications coming from men who, in the past, have used the columns of the press but little for the discussion of public questions. The machine-like precision with which these communications appeared would seem to indicate that these letters have not been issued altogether out of considerations of public welfare. We suspect that the letters have not been wholly uninspired and that friendship for the owners of the street railway company has had something to do with them.

The Capital Times does not mean to suggest tha the company has no right to do this but we do believe that the public should be in possessoin of all of the facts.

We presume that the greatest good to the greatest number, THE PUBLIC WELFARE, is the paramount question in the settlement of this question. In spite of the fact that in some quarters it has been intimated that a property qualification should be necessary here in Madison for citizenship we believe that even the man who rents a home and uses the street cars is entitled to consideration.

It is to be noted that in the letters which have made up the negative side of the debate that the authors are citizenes who use the street cars but little. The letters came largely from men who are able to buy automobiles and are therefore somewhat independent of inadequate service, high rents or six cent fares.

It is further to be noted that they come largely from men who have been quite indifferent in the past when the people of this community have been unjustly TAXED, either directly or indirectly. These letters do not come from men who have taken any lead in the past in protesting against six cent fares, unjust public utility charges, the high cost of living or any other exploitation of the people AT THE HANDS OF THE SPECIAL INTERESTS.

We may also expect that these voices in the future will not be lifted against any move to further increase the tribute which this community will have to pay to the street car company if municipal ownership is defeated.

The question is:

Is the future welfare of Madison a higher consideration than commercial profits. Shall we decide this question on the basis of a FEW people who benefit by public exploitation or shall we decide it from the standpoint of the MANY who must have good street car service?

Think it over.

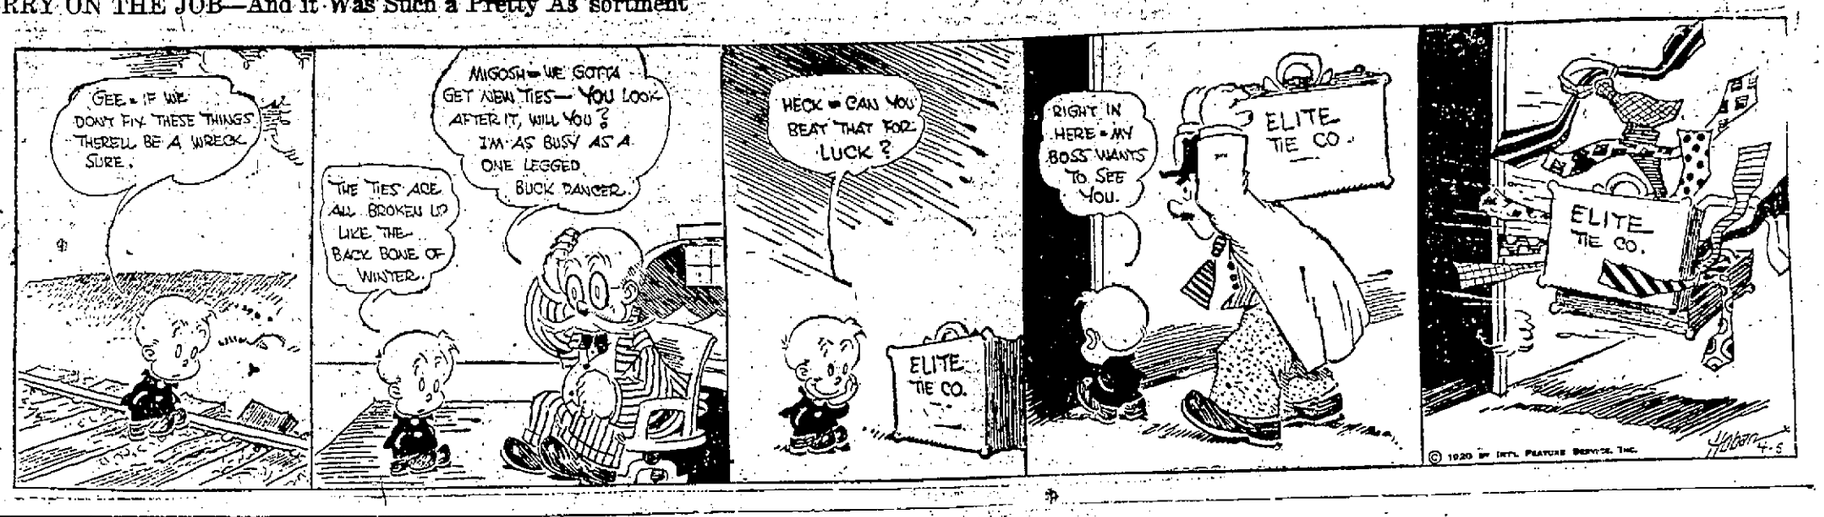

DON'T FORGET THE AMENDMENT

AND do not forget to vote for the amendment to the constitution which will enable the legislature to increase salaries of members of the legislature.

If you want to keep the workingman out of the legislature vote against the amendment. If you want to turn the making of our laws over to those who have money, vote against the amendment.

No poor man can afford to come to the legislature for a salary of $500. The big interests are hoping that the salary will be kept at that figure.

SELLING THE WATER

To the Editor of The Capital Times:

In the discussion which has been carried on concerning Municipal Ownership of the Street Railway a great deal has been said about watered stock, financial manipulation and over-bonding the Company's properties. But I have seen nothing about one of the usual means for injecting water into public utility corporations of the old school. I want to call attention to the usual practice, before the modern Public Utility laws were enacted, of capitalizing a city franchise and issuing stock thereon for whatever amount the grantee might see fit. To illustrate: When a franchise for water, gas, light or street cars are granted, those who were given the franchise immediately fixed a value thereon as high as they thought would get by when bonds were issued to help pay for the construction. In this way watered stock became the basis for levying toll on the public to pay dividends on stock issued on a franchise which was a gift from the city. I am inclined to believe that this explains how some of the water got into the Madison Street Railway Co.

E. J. Onstad.

WHAT IS IT? LEPROSY?

To the Editor of The Capital Times:

Could you enlighten me as to what ailment a person must be afflicted with in order to have a physician prescribe whisky? Or is it necessary to suggest the "medicine" the patient desires?

Why this farce in having a doctor fill out a prescription slip stating it is necessary to stop this epidemic of "Threedollarapintis" or whatever disease this is supposed to be which seems to have hit our ex-saloonkeepers, bartenders and bar flies more severely than the remainder of the populace.

Do the revenue inspectors inspect? Have they noticed how often certain parties have been having their allowances renewed? Does there seem to be any sign of the patients improving?

I am located in a building where we have one of the "specialist" on this disease and where formerly he may have averaged ten calls per morning. I know that he has thirty. In other words, two-thirds of his patients are "suffering from this plague."

Why pass a law that cannot be enforced? Or why pass a law that is contrary to the wishes of the majority of the people? That brings us back to the 18th Amendment—O, H— what's the use?

J. F. O'CONNELL.

FROM JOHN P. BUTLER.

(Business Agent Building Trades.)

In the arguments pro con on M. O., the Nye bill under which the city proposes to acquire the Madison Street Railways company has been mentioned, but its history has never been published.

It appeared at the hearing that the city of Superior, realizing the need of M. O., had entered into a contract with a bond house in Chicago to finance the taking over of their system.

The method outlined in the bill was for the city to issue bonds secured by the property acquired. These bonds were payable as to principal and interest out of a special fund created by the act for that purpose.

At the first hearing held March 5, 1919, R. I. Tipton, city attorney of Superior, appeared for the bill. Mr. C. W. McNear, representing the city of Superior, on behalf of the bond house in Chicago, explained how the city could fix a rate lower than the existing rate return of 7½ per cent, viz., six if the bonds bore 5 per cent interest and 7 if the bonds bore six per cent interest and still pay principal and interest in 34½ years.

If any one is still in doubt as to the cities' ability to sell the bonds, the fact that a bond house would assist in drawing a bill would send a man to help in the passage of such a bill should forever set that doubt at rest.

At the first hearing Mr. William Ryan, city attorney of Madison, representing the Wisconsin League of Municipalities, also appeared for the bill.

Against the bill were: C. R. Fridley, attorney representing the Superior Light and Power Co., and Mr. Sheldon Glass of Milwaukee.

At the second hearing held April 9, 1919, the following men appeared for the bill: R. I. Tipton, city attorney, Superior; Mayor Fisher, Marinette; William Ryan, Madison; T. E. Welch, mayor-elect Janesville; R. G. Cunningham, city attorney Janesville; Mayor Thiesen, Racine; Mayor O'Neil, Chippewa Falls; Mr. Goldman, city attorney, Marinette; C. W. McNear, 76 W. Monroe st., Chicago; Mayor Hall, Green Bay; E. L. Kelly, city attorney, Manitowoc; Mayor Hoan, Milwaukee; J. B. Fleming, corporation counsel, Eau Claire; H. N. Winchester, city attorney, Reedsburg; J. F. Hohensee, mayor, Fond du Lac; Mayor Wilcox, De Pere; Mr. Regan, city attorney, Wausau; Mayor Baldwin, West Allis; Assistant City Attorney Canright, Milwaukee.

Against the bill were only three men. One representing the Superior Light and Power Co., Mr. W. A. Jackson, Milwaukee, representing the Milwaukee Electric Railway and Light Co., and J. B. Sanborn of Madison, representing the Wisconsin Electric association.

Mr. Voter, where are you going to be on April 6th, with Mr. Sanborn, the Montgomeries and "our best citizens" who do not use the street cars, or with the public spirited citizens and officials loyal to the interest of their cities who appeared for the Nye bill?

JOHN P. BUTLER.

FROM MR. HERFURTH

To the Editor of The Capital Times:

In connection with the present controversy on the question of municipal ownership of the street railway system one frequently hears complaints about the service. In a general way all things are good or are bad only in comparison with some other thing of like character, and if the service of the Madison street railways system is to be designated as good or as bad, it must necessarily be in comparing it with the service of street railway systems in other cities—especially in other Wisconsin cities of like size and character. Those whose business gives them occasion to visit other Wisconsin cities with more or less frequency unhesitatingly say that there is no city in Wisconsin comparable in size with the city of Madison where the street car service is better, and that there are few where it is as good as it is in Madison. The term service may be variously interpreted, but as here interpreted it means good cars are kept clean and safely operated, and sufficient in number to carry with reasonable dispatch the people to and from points on the company's car line.

The local cars have almost uniformly been of the latest type and up-to-date. There has been some popular agitation about the employment of double-track cars which would accommodate a larger number of passengers than do the cars now in use. The double-truck cars are, of course, very much more expensive than the type now used but the increased cost both of their acquisition and operation would doubtless mean a smaller number of cars actually in daily operation, and thus an actual impairment of expeditious transportation. Most of our people find the single truck cars to be quite as comfortable as the double truck cars.

The company's road bed is of the best character and surpasses that of most other cities in smoothness. The employees of the company are invariably courteous and attentive to the needs of the passengers.

Occasional delays in the movement of cars and unavoidable and entirely beyond the control of the operators of the railway company. Any person who wishes to test out the verity of this statement has but to take two or three round trips over the company's line on any day and observe carefully the numerous and unavoidable delays due to street traffic, movement of railroad trains over street crossings, et cetera. Such personal experience is the most convincing argument that delays are unavoidable and it is also no more than fair to say that motormen and conductors are just as much annoyed at these enforced delays as are the passengers, and that they do all they possibly can to maintain the company's schedules.

Many of the complaints against the street railway company are doubtless without any basis in fact, and whether the street railway system is under the control of private ownership or under municipal control, there would doubtless be the same amount of popular lamentation and complaint on the part of those who yield easily to these tendencies.

It has been suggested that on next Tuesday we are not to vote upon the actual acquisition of the Madison street railway, but rather that we proppse to vote on whether or not we may at some future time wish to figure on its acquisition, thus leaving the question open, and undetermined at this time. It seems obvious that such action would be fatal to the transportation service we expect and need to have during the intervening period as it would leave the street railway company without its natural incentive to maintain service, equipment and road-beds at anything approaching a high point of efficiency. If we were actually to have municipal ownership, obviously it would be for the best interests of the city to pay a fair price and actually take possession of the property at the earliest possible moment, as no other investor will put money into a street railway system whose future is a matter of such great uncertainty. At next Tuesday's election we are to vote upon whether or not we are to acquire an expensive property, knowing little or nothing about its actual acquisition price, with every prospect of its being a source of financial loss then and thereafter to the City of Madison. Under the circumstances, prudent men will hesitate to give an affirmative vote on this question.

THEODORE HERFURTH.

MR. NIMLOSS OF THE EQUITY AND THE A. C. A.

The most enthusiastic meeting since the opening of this branch was held here last Tuesday afternoon with Mr. Thomas Nimloss giving the main address. While the membership at Calmar possibly did not know it, they have been hungering for just such a talk as Mr. Nimloss gave. The need of more co-operation between members and the local business was made evident. The need for a farmers' bank was shown and above all the NEED FOR ADDITIONAL WORKING CAPITAL TO ENABLE MORE ADVANTAGEOUS BUYING WAS BROT OUT. It has been known for a long time that the Calmar branch is doing too big a business to be hampered by lack of capital, and it is not to strong a statement when we say that a 50 per cent greater saving could be effected for the stockholders if only sufficient funds were available.—From The Organized Farmer.

Lets see. Isn't Mr. Nimloss the private secretary of President Tittemore of the Equity?

THE USUAL CRY

Governor Philipp tells the people to vote for uninstructed delegates to the National Republican convention at Chicago, in a speech at Marathon. He shouts the usual cry. "L-o-o-k-o-u-t for S-o-c-i-a-l-i-s-m;" shouts Philipp. Was there ever a man who had less horse sense! He thinks the people are still dense. He wants to scare them into voting the wrong way. Because La Follette, that valiant protector of the people's rights, has a platform, this man says it's because he wants "to catch the votes." Pst; don't whisper it to a soul, but 'tis a fact, man, La Follette wants to catch the vote!

Listen, neighbor, if La Follette is out to catch your vote, let him corral the thing. Don't give your vote to the profiteers.

It has been the same old story for years past. Should a man come forward with a known remedy for the ills of the country call him a Socialist, anarchist, Red. Bolshevik, and, well, call him anything you like in order to get the people to side with you. You don't have to tell them that you propose any remedy, just run down the other fellow.

What has Philipp done for the people? Philipp would be unable to answer this question himself. When he delivers one of his long-drawn preambles from the platform, he talks a lot but doesn'a say anything. You have heard him and know that compared to a man like La Follette and men like him who have drawn up a platform which, if they are allowed to carry it out will greatly benefit the people, he is a rather small benefit.

Philipp, according to the press reports, says to the farmers: "I shall not believe that you are willing to turn over your farms." And, irrespective of what Socialist agitators may say to you that is what Socialism stands for.

Of course the farmers haven't been turning over their farms to the profiteers, have they? Oh, no; they have been peacefully digging in from morning till night, bought liberty bonds, bought this and that, dug into their jeans until they wore holes in their pockets—practically mulched dry by this Big Business aggregation which Philipp champions, and now they are asked by Philipp to beware of La Follette and La Follette instructed delegates! It would be laughable if it were not so serious.—Manitowoc Times.

BIG BUSINESS KNOWS

Big business seeing their government control in danger by the election of La Follette to the presidency got behind Roosevelt to help to destroy the man best fitted at a time that could have lead the nation out of dangerous waters. Big business won and since has been aided by the man who promised to make the world safe for democracy.—Chadwick Clarion.
